7 DECEMBER, 18.30-20.00

Observer Room 01

COP21
SIDE EVENT

The pivotal role of water in climate change adaptation and mitigation

The event aims to raise awareness on the centrality of water for climate change adaptation and mitigation and the role the United Nations system can play in assisting countries in this regard. It will demonstrate good practices of how to adapt water management and water services to climate change.

Topics of discussion

- How to mainstream water-related adaptation in planning processes at national, basin and local level?
- Synergies and potential trade-offs between adaptation and mitigation
- Water-energy-food-ecosystem nexus
- Ecosystem-based Adaptation
- Water-related climate finance

Chair

Michel Jarraud, UN-Water Chair

Moderator

Anna Lindstedt, Swedish Climate Ambassador

Panelists

Manuel Pulgar-Vidal, Minister of Environment, Peru, President of COP20

Angela Kallhauge, IRENA

Bernard Giraud, President of Livelihoods Venture, Senior Adviser Sustainability & Shared Value, Danone
