

MEET THE WORKING TOILETS

UN WATER
19 November
WORLD
TOILET
DAY

This gang play a crucial role at work, at home, at school, everywhere – keeping people healthy and productive. **But one in three of the world's population doesn't have a toilet – anywhere.**

Toilets save lives, increase productivity,
create jobs and grow economies.
Toilets work.

Together, we can make sure everyone has a toilet by 2030 at www.worldtoiletday.org
