SDG 6 WATER ACTION AGENDA SPECIAL EVENT

With launch of the
SDG 6 Country Acceleration Case Studies 2025

**Tuesday, July 22 at 3:00-6:00pm EDT
Conference Room 11, UN HQ, New York**

Background

The UN-Water Chair and the Under-Secretary-General of UN DESA will co-host the fifth annual SDG 6 Water Action Agenda Special Event during the High-level Political Forum, taking stock of country-level implementation of SDG 6, emerging technologies as well as the intergovernmental process on water.

Progress on water-related goals and targets at the country level has demonstrated synergistic effects on SDG implementation, and peer-to-peer learning has emerged as an innovative and effective way to strengthen cooperation. In this spirit, UN-Water will launch its fourth iteration of the SDG 6 Country Acceleration Case Studies, showcasing practical examples of successful policies from Bhutan, Rwanda and Saudi Arabia. High-level representatives will share best practices and discuss the role of the UN system at the country level together with the UN Development Coordination Office, which oversees the Resident Coordinator System.

This will be followed by a conversation between the UN-Water Chair and President of the 2025 session of the Economic and Social Council on Artificial Intelligence (AI) and how it has the potential to transform the pathway to 2030. The fireside chat will touch upon both the misuse and missed uses of AI for water and sustainable development, focusing on the opportunities for cross-cutting issues such as climate, biodiversity and sustainable food systems.

At the mid-point between the upcoming 2026 UN Water Conference and the previous UN 2023 Water Conference – which saw over 800 commitments from governments, civil society, and the private sector under the Water Action Agenda – this Special Event will feature a discussion on how the inclusive and collaborative preparatory process driven by Senegal and the United Arab Emirates is building continuity and catalyzing global action for SDG 6. Water Action Agenda commitment holders will discuss implementation and what enabling environments are needed for innovative solutions.

Draft Agenda

Master of Ceremonies: Ms. **Toni-Shae Freckleton**, Chief, New York Liaison Office, UNDRR

■ 15:00 – 15:15 Keynote speakers

- Mr. **Alvaro Lario**, UN-Water Chair and President of the International Fund for Agricultural Development
